## Reading Material Purchasing Resources

- Many of the resources listed above can be found and purchased online. [Rainbow Resource](#) is a great option to find low-cost homeschool resources. Portals has also created an [Amazon Leaders Level Booklist](#) where you can review and purchase many of the books that you will need. Not all texts are sold on Amazon, so this is not a complete list.

## Reading Material Free Resources

- The best free resource available is your local library. You can either search for the books yourself, or bring this list to the librarian for help locating each of the titles that you need. Not all of these resources will be available in a public library, so you may have to search your church library, or join a local homeschool curriculum sell and swap.
- Another great resource for finding free reading materials is [Project Gutenberg](#). Project Gutenberg digitizes the world's greatest literature, with focus on older works for which U.S. copyright has expired. The books from this list that are available on Project Gutenberg have been denoted with an asterisk (\*).
